

2021 STUDENT RESEARCH POSTER CONTEST
Awarded by Tom Getts, CWSS Student Liaison

This year the California Weed Science Society (CWSS) hosted a Virtual Student Poster Competition. Each student submitted a PDF of their poster and a link to a video where they describe their work. Please take some time to learn more about the exciting weed science research that is happening in California! Below are links to all student posters and the videos: <https://ucanr.edu/p/70554>

1st Place Graduate – Liberty Galvin, University of California, Davis
California Weedy Rice (*Oryza sativa spontanea*) Emergence Patterns Under Field Conditions, Implications for Management

2nd Place Graduate - Wenzhuo Wu, University of California, Davis
Sterile Pollen Technique as a Novel Weed Management Tool

3rd Place Graduate - Alex Ceseski, University of California, Davis
Enhanced Metabolism of ALS Inhibitors in *Cyperus difformis*

1st Place Undergraduate – Gabrielle Celaya-Finke, California State University, Fresno
Effects of Salinity and pH on Common Waterhemp (*Amaranthus tuberculatus*) Germination

2nd Place Undergraduate – Guelta Laguerre, University of California, Davis
Understanding the Effect of Algaecide Application's Timing on Early Algae Infestation in California Rice Production
